SEAN RYAN  
VIDEO EDITOR

I have been working in the media industry for over eight years & editing for over six. I have a vast amount of experience creating broadcast, factual, narrative & branded content, working closely with exacting clients to tight deadlines & strict brand guidelines. I have created social media videos that have reached millions of views, comms pieces for multinational corporations, narrative pieces for film festivals & factual entertainment pieces for broadcast. I have a true passion for storytelling & love working with producers & directors to realise a shared vision; however I am equally content with heading up projects on my own. I am comfortable with Premiere, After Effects, Da Vinci Resolve, FCPX & Avid.
